Water Polo for everyone

Very few sports combine teamwork and strategy with the level of skill, speed and endurance high performance water polo players have to display in the pool. However, water polo is also a fun and accessible activity that can be enjoyed by a wide variety of people, regardless of their fitness and skill level.

Not all water polo participants can become National Team athletes and coaches or FINA level referees. Moreover, not all participants want to invest the significant hours and funds it takes to achieve this status. Our water polo system allows athletes multiple programming opportunities to seek their individual goals, whether it is a National Team career, competitive water polo or simply using water polo as a fun and healthy activity.

What is Long-Term Athlete Development (LTAD)?

LTAD combines sports science with the art of coaching to propose a progression where water polo players can develop skills and enjoy the sport through training and competition that are well adapted to their personal goals and to the different stages in development (physical, emotional, mental and cognitive maturation) rather than chronological age. The philosophies and ideologies behind LTAD are athlete-centered, coach-driven, and administration, sport science and sponsor-supported.

Using the principles of LTAD to improve Water Polo in Canada

For water polo in Canada to grow and thrive, the training and competition structure, coaching, officiating, system alignment, cooperation and succession planning must be highly effective and extremely efficient. A sustainable domestic infrastructure (grassroots and high performance) will foster success at the World Championships and Olympic Games while reaching the objectives of a healthier Canada. LTAD is the mechanism that drives change to move water polo in Canada into the 21st century and beyond.

Benefits of LTAD approach

**FOR PARENTS AND PLAYERS**
- Creates understanding of what is an appropriate water polo program based on developmental rather than chronological age
- Facilitates skill acquisition and fun through adapted training and competition formats
- Ensures access to more knowledgeable coaches and officials
- Presents clear pathway to high performance

**FOR COACHES AND CLUBS**
- Provides up-to-date information and education regarding safe and effective coaching methods
- Offers detailed guidelines regarding the running of games, competition level and frequency, etc.
- Suggests individualized training plans based on athletes’ developmental age
- Delivers coach-driven programs that can provide the best opportunities for all

**FOR OFFICIALS**
- Clarifies the purpose of competition(s)
- Ensures their support to the competitive experience
- Proposes age-appropriate rule application

Stage by Stage Recommendations

The following pages present some of the key recommendations provided by Water Polo Canada through its Competition Review Working Group and based on the WPC LTAD overview document. Both reports are available online in their full versions along with several other tools and resources.

For additional information and resources regarding each stage of development, please visit the LTAD homepage on [WWW.WATERPOLO.CA](http://WWW.WATERPOLO.CA)

2- These recommendations highlights are adapted from Water Polo Canada’s LTAD Competition Review document available at [www.waterpolo.ca](http://www.waterpolo.ca)
Stage by Stage Recommendations

FUNdamentals (6-9 boys; 6-8 girls)

**Age group:** 8 and under, mixed or gender-specific

**Primary objective:** Learn all fundamental movement skills and build overall motor skills

**Guiding principles for training and competition:**
- FUN unstructured games
- Modified sport
- Equal playing time
- All positions and All inclusive
- Adults: setup and step back
- Seasonal programming

**Informal and unstructured game:**

<table>
<thead>
<tr>
<th>Game Format</th>
<th>Team Size</th>
<th>Game Duration</th>
<th>Ball Size (Mikasa or equivalent)</th>
<th>Length</th>
<th>Width</th>
<th>Goal Sizes</th>
</tr>
</thead>
<tbody>
<tr>
<td>3 on 3 + goalie</td>
<td>Min 5; Max 8</td>
<td>3-2 X 10 min</td>
<td>Mikasa Size 1</td>
<td>10-12m</td>
<td>8-10m</td>
<td>L: 2m H: 0.9m from water</td>
</tr>
<tr>
<td>4 on 4 + goalie</td>
<td>Min 6; Max 10</td>
<td>2 X 10 min</td>
<td></td>
<td>13-15m</td>
<td>10-12m</td>
<td></td>
</tr>
</tbody>
</table>

**Training and competition considerations:**
- Refer to modified rules table on page 13.
- Clubs should offer distinct seasons (fall, winter, spring and summer) allowing for participants to register for only those they would like to.
- Athletes at this stage of development should focus on FUN and unstructured play in shallow water.
- No official sanctioned competitions should be offered. Modified games should be played during each practice. Practices should last no longer than 60 minutes in length.
- Programs should have 2-3 practices per week allowing for participation in other physical activities, which is to be encouraged on a daily basis.

3. Goals can be made up of any material. They can be floating in the water or on the side of the pool. Please see the NCCP Community Club Coach Toolbox for guidelines.

4. Two halves of 10 minutes of running time.
Stage by Stage Recommendations

**TECHNICAL FOUNDATIONS (9-12 BOYS; 8-11 GIRLS)**

**AGE GROUP:** 10 AND UNDER AND 12 AND UNDER, GENDER-SPECIFIC

**PRIMARY OBJECTIVE:** LEARN OVERALL SPORTS SKILLS

**GUIDING PRINCIPLES FOR TRAINING AND COMPETITION:**

- More fun
- Adults: setup and step back
- Golden years of skill learning
- Skill competitions
- Modified sport
- Train more than compete
- Equal playing time
- Promote local competition

**GAME STRUCTURE:**

<table>
<thead>
<tr>
<th>Game Format</th>
<th>Team Size</th>
<th>Game Duration</th>
<th>Ball Size (Mikasa or Equivalent)</th>
<th>Length</th>
<th>Width</th>
<th>Goal Sizes</th>
</tr>
</thead>
<tbody>
<tr>
<td>3 on 3 + goalie</td>
<td>Min 5; Max 8</td>
<td>6 x 6 min</td>
<td>Mikasa Size 2</td>
<td>10-12m</td>
<td>8-10m</td>
<td>L: 2m H: 0.9m from water</td>
</tr>
<tr>
<td>4 on 4 + goalie</td>
<td>Min 6; Max 10</td>
<td></td>
<td></td>
<td>13-15m</td>
<td>10-12m</td>
<td></td>
</tr>
<tr>
<td>5 on 5 + goalie</td>
<td>Min 7; Max 12</td>
<td></td>
<td></td>
<td>16-20m</td>
<td>13-15m</td>
<td></td>
</tr>
</tbody>
</table>

**TRAINING AND COMPETITION CONSIDERATIONS:**

- Refer to modified rules table on page 13.
- Clubs and provincial sports organizations should offer four distinct seasons and structured league play.
- Athletes at this stage of development should focus on FUN, skill development and the introduction of structured competition.
- Clubs should offer practices 3 times per week ranging from 60-90 minutes in length plus 30 minutes of dry land training each practice that promotes physical literacy. Athletes should be playing 2 games per day (maximum of 3) and a maximum of 5 games over a 48 hour period. There should be a minimum rest time of 30 minutes between games. Suggested annual training and competition calendar is available from WPC.
- Athletes should be encouraged to participate in other sports and activities – namely swimming, athletics, gymnastics and other team sports.

---

5. Goals can be made up of any material. They can be floating in the water or on the side of the pool. Please see the NCCP Community Club Coach Toolbox for guidelines.

6. Four quarters of 6 minutes running time with a 1 minute break between quarters.
Stage by Stage Recommendations

**Competitive Foundations (12-16 boys; 11-15 girls)**

**Age group:** 15 and under (targeting 13-15 year olds), gender-specific

**Primary objective:** Build an aerobic base, develop speed and strength. Further develop and consolidate sport-specific skills and build mental capacities.

**Guiding principles for training and competition:**
- Build the engine
- Evolve to specialization
- Early stages modified sport
- Promote local competitions
- Monitor growth (physical, mental, cognitive and emotional)
- Match skills and abilities and allow for new participants
- Train more than compete
- Double periodization

**Game structure:**

<table>
<thead>
<tr>
<th>Gender</th>
<th>Game Format</th>
<th>Team Size</th>
<th>Game Duration</th>
<th>Ball Size (Mikasa or equivalent)</th>
<th>Length</th>
<th>Width</th>
</tr>
</thead>
<tbody>
<tr>
<td>Male</td>
<td>6 on 6 + goalie</td>
<td>Min 11; Max 14</td>
<td>10 x 8 min</td>
<td>Mikasa 6000 or 5500 series</td>
<td>23-30m</td>
<td>13-20m</td>
</tr>
<tr>
<td>Female</td>
<td></td>
<td></td>
<td></td>
<td>Mikasa 6009 or 5509 series</td>
<td>23-25m</td>
<td>13-20m</td>
</tr>
</tbody>
</table>

**Pool Sizes**
- FINA regulation (WP 2)
- L: 3m
- H: 0.9m from water

**Training and competition considerations:**
- Refer to modified rules table on page 13.
- Athletes at this stage of development should focus on consolidating the basic and advanced water polo skills, fitness training (core strength and speed) and linking training to competition.
- Coaches must pay special attention to growth and development differences (especially in male athletes).
- It is recommended that athletes play 1 game per day, however, 2 games per day is permissible provided there is a minimum of 5 hours of rest between games.
- Athletes who have entered the Excellence stream should begin training in water-polo 12 months per year and 6 days per week with periodic rest of no more than 2 consecutive weeks.

**Competition format and calendar:** 15 and under National Club Championships (NCC) League for athletes in Excellence stream, provincial and club-level competitions for others.

---

7- 8-year objective for this stage is to eventually develop both a 14 and under AND a 16 and under NCC league.
8- Length is measured from goal line to goal line.
9- It is recommended that teams carry two goaltenders – one of which is at the early stages of this pathway (~13 years old).
10- Four quarters of 8 minutes stop time with a 2 minute interval break between the 1st and 2nd quarter, 3 minute half-time and a 2 minute interval break between the 3rd and 4th quarter.
11- See Useful Definitions for stream of competition, training and competition explanations.
Stage by Stage Recommendations

Train to Compete (16-19 ~ teenage boys; 15-18 ~ teenage girls)

Age Group: 18 and under (targeting 16-18 year olds), gender-specific

Primary Objective: Optimize the engine and learn to compete

Guiding principles for training and competition:

- Position-specific skills
- Train more than compete
- Learn to compete under any circumstances
- Promote Canadian competitions
- Monitor growth – late matures
- Double periodization
- Match similar skills and abilities
- Promotion of the student athlete in Canada

Game structure:

<table>
<thead>
<tr>
<th>Gender</th>
<th>Game Format</th>
<th>Team Size</th>
<th>Game Duration</th>
<th>Ball Size (Mikasa or equivalent)</th>
<th>Length</th>
<th>Width</th>
<th>Goal Sizes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Male</td>
<td>6 on 6 + goalie</td>
<td>Min 11; Max 14</td>
<td>4 x 9 min</td>

<td>30m</td>
<td>20m</td>
<td>FINA regulation (WP 2) L: 3m H: 0.9m from water</td>
</tr>
<tr>
<td>Female</td>
<td></td>
<td></td>
<td></td>
<td>Mikasa 6009 or 5509 series</td>
<td>25m</td>
<td>20m</td>
<td></td>
</tr>
</tbody>
</table>

Training and competition considerations:

- Refer to modified rules table on page 13.
- Athletes at this stage of development should focus on consolidating and refining advanced and position specific water polo skills, water polo and position specific physical conditioning and training for specific competitions.
- It is recommended that athletes play 1 game per day with a minimum of 10 hours of rest between games. Teams should provide game-day training at least 6 hours prior to game.
- Athletes should be training in water-polo 12 months per year and 6 days per week with periodic rest of no more than 2 consecutive weeks.

12 - Length is measured from goal line to goal line.
13 - It is recommended that teams carry two goaltenders.
14 - Four quarters of 9 minutes stop time with a 2 minute interval break between the 1st and 2nd quarter, 3 minute half-time and a 2 minute interval break between the 3rd and 4th quarter.
15 - See Useful Definitions for stream of competition, training and competition explanations.
Stage by Stage Recommendations

Train to Perform (19-25~ men; 18-23~ women)

Age group: Senior semi-professional league
Primary objective: Own the Podium

Guiding principles for training and competition:
- Maximize the engine and position-specific skills
- Team results supersede individual development
- Train more than compete
- Double periodization
- Athletes benefit by training/playing with more athletes
- Promotion of the student athlete in Canada

Game structure:

<table>
<thead>
<tr>
<th>Gender</th>
<th>Game Format</th>
<th>#Team Size</th>
<th>Game Duration</th>
<th>Ball Size (Mikasa or equivalent)</th>
<th>Length</th>
<th>Width</th>
<th>Goal Sizes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Male</td>
<td>6 on 6 + goalie</td>
<td>Max 13</td>
<td>74 x 8 min</td>
<td>Mikasa 6000 series</td>
<td>30m</td>
<td>20m</td>
<td>FINA regulation (WP 2) L: 3m H: 0.9m from water</td>
</tr>
<tr>
<td>Female</td>
<td>6 on 6 + goalie</td>
<td>Max 13</td>
<td>74 x 8 min</td>
<td>Mikasa 6009 series</td>
<td>25m</td>
<td>20m</td>
<td></td>
</tr>
</tbody>
</table>

Training and competition considerations:
- Athletes at this stage of development should focus on refining and perfecting all water polo technical and tactical skills, water polo and position-specific physical conditioning and the focus should move from the individual to team performance.
- Athletes play 1 game per day with a minimum of 12 hours of rest between games. Teams should provide game-day training at least 6 hours prior to game.
- Athletes should be training in water-polo 12 months per year and 6 days per week with periodic rest of no more than 2 consecutive weeks.

Competition structure and calendar: International calendar and national semi-professional league (in development). Detailed information in the full Competition Review Document.

16- Length is measured from goal line to goal line.
17- Four quarters of 8 minutes stop time with a 2 minute interval break between the 1st and 2nd quarter, 5 minute half-time and a 2 minute interval break between the 3rd and 4th quarter.
Stage by Stage Recommendations

Competitive for Life (~13 and older)

**Age group:** Age groups may vary from province to province – 14 and under; 16 and under; 18 and under; Senior; University; Masters

**Primary goal:** To create competitive water polo opportunities for all ages

**Guiding principles for training and competition:**
- Accommodating range of abilities
- Match similar skills and abilities
- Gender-specific teams
- Modified sport
- Adapt training-to-competition ratio to fit needs
- Seasonal programming

**Game structure:**

<table>
<thead>
<tr>
<th>Gender</th>
<th>Game Format</th>
<th>Team Size</th>
<th>Game Duration</th>
<th>Ball Size (Mikasa or equivalent)</th>
<th>Length</th>
<th>Width</th>
<th>Goal Sizes</th>
</tr>

<td></td>
<td></td>
<td></td>
<td>Mikasa 6009 or 5509 series</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

- Team size and the number of athletes in the water are dependent upon the size of the field of play. The smaller (length x width) the field, the smaller the number of players in the water and on the bench. The maximum, regardless of field size, should be 6-on-6.

**Training and competition considerations:**
- Refer to modified rules table on page 13.
- Clubs and Provincial Sport Organizations should create seasonal programs as water polo may not be the priority for the athletes in this stream. However, programs should align with the Excellence stream as closely as possible so new athletes can still enter the sport and be provided with adequate training and competition to make the transition into Excellence stream.
- It is recommended that these athletes play a maximum of 2 games per day with a minimum of 4 hours of rest between games and a maximum of 5 games over a 72 hour period.

**Competition structure and calendar:** Calendars for each age group within this stream is determined by Provincial Sport Organizations however it are critical that each provincial calendar aligns with the national calendar.

18. Any and all pools that is available. Maximum size of the field of play should be 25m x 20m. The minimum depth should be all deep water.
19. Four quarters of 7 minutes stop time with a 2 minute interval break between each quarter.
20. See Useful Definitions for training and competition.
Stage by Stage Recommendations

**Active for Life (~16 and older)**

**Age group:** Age groups may vary from province to province – 16 and under; 18 and under; Middle and High School; Masters

**Primary goal:** A smooth transition from an athlete’s competitive career to lifelong physical activity and participation in water polo

**Guiding principles for training and competition:**

- Enjoyment of sport through competition, training and social
- Accommodating range of abilities
- Match similar skills and abilities
- Allow for new participants
- Modified sport
- Seasonal programming

**Game structure:**

<table>
<thead>
<tr>
<th>Game Format</th>
<th>Team Size</th>
<th>Game Duration</th>
<th>Ball Size (Mikasa or equivalent)</th>
<th>Length</th>
<th>Width</th>
<th>Goal Sizes</th>
</tr>
</thead>
<tbody>
<tr>

</tbody>
</table>

- The field of play should be adapted to match skills and abilities (i.e. new entrants to the sport could play 1/2 shallow, 1/2 deep water).
- The field of play, the number of athletes in the water and the length of the game should be modified to encourage new teams and equal opportunity sport (i.e. increase the number of female athletes and minority groups).

**Training and competition considerations:**

- Refer to modified rules table on page 13.
- Clubs and Provincial Sport Organization should create seasonal programs as water polo is not the priority in this stream. The focus needs to be on fun, social and meaningful training (i.e. exercise) and competition (i.e. match similar skills and abilities).

---

21. Any and all pools that is available. Maximum size of the field of play should be 25m x 20m.
Useful definitions

**Long-Term Athlete Development (LTAD):**
is a player and participant development model from
playground to podium. It is a philosophy for modifying
the sport culture in Canada. LTAD affects governance
at all levels, coaching, officiating and competition.
LTAD is an athlete-centered approach, coach driven
and administratively supported.

**National Club Championships (NCC):**
Is the National event for each age group identified
by WPC and organized by Water Polo Canada (WPC)
and the host club – based on a rotating bid process.
The current NCC for each age group is one weekend,
however, the proposed changes are for an NCC
League over an entire program year with the National
Final occurring over one weekend.

**Stream of competition:**
This term is used to describe the type of training
and competition, time commitment, type of competi-
tions, etc. associated with each stage of develop-
ment. There are four streams identified throughout
– Physical Literacy, Active for Life (A4L), Competitive
for Life (C4L) and Excellence. Water Polo Canada is
responsible for the Excellence stream competitions
while A4L and C4L competitions are organized by
clubs and provincial sports organizations.

**Stage of development:**
This term is used to define the developmental age
and the needs of the athlete. Each stage of
development has an approximate chronological age,
however, the key is to understand training needs based on
the physical, emotional, mental and
cognitive maturation of the individual.

**Training and Competition:**
Training is defined as the development of the athletic
abilities in a practice environment or non-league
environment: conditioning (physical and motor);
technical (skills and individual tactics); tactical
(non-league games, simulated games, exhibition
games, half-court, etc.); and mental (cognitive and
emotional). Competition is referred to as a major
competition leading to the final outcome/peak
within the program year.

**Water Polo Canada (WPC):**
Is the governing body for water polo in Canada
delivering leadership in coach and referee educa-
tion and athlete development, organizing National
level competitions and representing Canada on the
international stage.
